Rabaska Canoe
26-ft (8 m)

Voyageur Canoe
34-ft (10,5 m)

OUR CLIENTS

Outdoor centres, vacation camps, Quebec and national parks, wildlife reserves, outfitters, canoeing clubs and the Canadian Armed Forces.

WE MANUFACTURE, SELL AND DELIVER

- » Delivery using our own trailers to Quebec, Ontario and the Maritimes.
- » Explorer and Excursion canoes can seat up to four or five.
- » Rabaska canoes can seat up to six or seven.
- » Voyageur canoes can seat up to nine or ten, depending on the buyer.
- » Additionally, in accordance with Transport Canada requirements, all our canoes feature at each end a urethane foam shell to make them insubmergible, even when capsized with rowers sitting on top. The keel is reinforced with an aluminum rod moulded in kevlar.
- » Resin-covered, fibreglass- or treated wood-moulded seats, according to clients' needs.

WE REPAIR AND BUY

At any time, as soon as we receive your request, we can head over to your location and provide you with a quote on repairs for your canoes, to overhaul and refurbish them for your rowers' pleasure. Should you decide for a wholesale change of your canoe fleet, we can take in your old canoes as a down payment on the purchase of brand new canoes.

CONTACT ME, AND I WILL MAKE IT A PLEASURE TO BEST SERVE YOU!
